A new academic year begins…

Welcome to the 2014-2015 academic year!! It’s always a pleasure to see so many familiar faces returning for another year. We also want to extend a warm welcome to the incoming medical and graduate students, as well as recently hired faculty and staff. As always, there a number of changes underway - changes in leadership with Dr. Harold Paz’s departure, changes in the Health System with the proposed merger with Pinnacle Health, and ongoing planning for a renovation of the Harrell Health Sciences Library space. Quoting Alvin Toffler, “Change is the process by which the future invades our life.” We are certainly looking to the future here in the library.

The Harrell Health Sciences Library, both as a library and as an institutional resource, is thinking holistically and collaboratively as we plan for our future. We are in the process of designing spaces that will support teaching and learning, research, discovery, and innovation. We are including social spaces designed to bring students and faculty together to encourage “idea incubation.” The renovated space will be “characterized by flexibility, adaptability, and usability.” The space must also support the ongoing expansion of new educational programs, new teaching modalities, and 21st century students coming to us as digital natives. Stay tuned for further developments as this process moves forward.

The Harrell HSL is also beginning strategic planning for the next three-year cycle, 2015-16 through 2017-18. As the world continues to change around us, we must respond to ensure that our spaces, services, and collections continue to support the four missions of Penn State Hershey - research, education, clinical care, and community outreach. In partnership with University Libraries, we will focus on the discovery, access, and preservation of our extensive collections, support teaching and learning, and advance research and clinical care.

So again, welcome. We invite you to stop in and take advantage of our expertise, extensive collections, space, and of course, just to say hello!
The George T. Harrell Health Sciences Library, in cooperation with University Libraries, has acquired the complete archive of the *New England Journal of Medicine* [NEJM]. This archive provides full electronic access to NEJM from its inception as the *New England Journal of Medicine and Surgery* in 1812. NEJM has changed title four times over its history, so the library journals list now has entries for each title:

- **New England Journal of Medicine** (0028-4793) [Alternate Title: NEJM]
  - from 1928 to present
- **Boston Medical and Surgical Journal** (0096-6762)
  - from 1828 to 1928
- **New-England Medical Review and Journal** (2163-2928)
  - 1827
- **New England Journal of Medicine and Surgery** (2163-3061)
  - from 1812 to 1826

Note, however, that using the link to any of these titles will take you to the full archive. The library is pleased to have been able to contribute to this purchase, enabling access for Penn State Hershey and University-wide students, faculty and staff.

**NIH Public Access Compliance**

This is a reminder that publications resulting from NIH funding are subject to the NIH Public Access Mandate. Manuscripts are required to be deposited to PubMed Central, per publishers’ policy, no more than three (3) months after they are accepted for publication. Compliance is required for future grant applications as well as renewals.

Additional information can be found on the Harrell Health Sciences Library’s website.

Contact Esther Dell at eyd1@psu.edu or 717-531-8633 if you need assistance.
Publication Fee Discounts

Authors of journal articles are occasionally charged a publication fee based on the journal’s fee schedule, or specifically for choosing to publish according to the Open Access model, which allows readers immediate access to articles without requiring a subscription to the publication. Due to institutional memberships/affiliations, Penn State authors are eligible for publication fee discounts for the following:

**Biomed Central publications** – 15% discount as part of Penn State University (supporter member). NOTE: “Hershey Medical Center-Homeland Security Masters” (full membership) only applies to authors who are affiliated with that specific program.

**PNAS** (Proceedings of the National Academy of Sciences) - $350 discount for publishing on the Open Access model available to Penn State authors due to our site license, resulting in a charge of $1000 instead of $1350. NOTE: there is no discount available for the basic publication fee.

**PLoS** – the publisher has eliminated institutional memberships and discounts are no longer available.
Library faculty have created several very short videos to help library users use our services effectively. All are currently available on YouTube and closed captioned for the hearing impaired.

Concise instructions—only 30 seconds long when possible—are available for:

- **Finding e-books quickly**
- **Searching for a journal by title**
- **Requesting materials that the library does not own**

These videos will be used on our website, in instructional materials for medical and graduate students, and periodically advertised on our website photo carousel.
Adams and Victor’s principles of neurology
Clinical Anesthesiology board review: a test simulation and self-assessment tool
Clinical microbiology made ridiculously simple
Essentials of spinal cord injury: basic research to clinical practice
Family practice examination & board review
Fostering nurse-led care: professional practice for the bedside leader from Massachusetts General Hospital
Fundamentals of biochemistry: life at the molecular level
Gray’s anatomy for students (print & electronic resources)
Introductory textbook of psychiatry
Lehninger principles of biochemistry
Management and leadership for nurse administrators
Pediatric nursing clinical guide
Physiology
Renal pathophysiology: the essentials
The trauma manual: trauma and acute care surgery
Trauma
Wheater’s functional histology: a text and colour atlas
Wheater’s functional histology (electronic resource)

Search these titles in The CAT for more information!

In addition, the library also has new materials in the Leadership Collection that have been provided by the Penn State Hershey Leadership Academy!
Visit Value Improvement Library or the entire Leadership Collection to browse these titles.
What We’re Doing . . .

- **Nancy Adams** co-authored a presentation, “Theory-based Active Learning Techniques For The Evidence-based Medicine Classroom” with Drs. Alan Adelman and Jay Zimmermann. It was pre-recorded and presented in a “flipped” format at the Medical Library Association Annual Conference, May 2014.

- **Amy Knehans** presented a poster, ”A Partnership In Introducing & Promoting Nursing Reference Center at the Point of Care” at the Medical Library Association 2014 Annual Conference.

- **Robyn Reed**, along with A. Donahue, presented the poster "Translating Information Skills: Moving From The Library To The Lab With Bioinformatics Services," at the Medical Library Association Annual Conference, May 2014.

- **Nancy Adams** coordinated the event, “Adult Education In The Health And Medical Professions” with Dr. Libby Tisdell of Penn State Harrisburg. The event was held here at Hershey, as a pre-conference for the Adult Education Research Conference and was partially funded by the Office of Medical Education.

- **Lauren Kime** and **Robyn Reed** attended the Web Conference 2014 in State College, PA in June, 2014.

**Welcoming New HHSL Faculty & Staff**

Ben Hoover is the Harrell Health Sciences Library’s new Access Services & Instruction Librarian.

Seamus Carmichael is our new Circulation Lead (Information Resources and Services Support Staff 3) and will support the front desk, graphic design, and part time staff support.

Amy Herr now offers Administrative Support for the Harrell Health Sciences Library. She took over for Christine Newberry, who retired in May.

Gwen Brandt, Daniel Werner, and Riley Conway have joined the Harrell Health Sciences Library’s front desk staff part-time.

---

**The Harrell Health Sciences Library Will Be Closed On Monday, September 1st For Labor Day.**
